

Dear Parents,

Assalamu Alaikum wa Rahmatullahi wa Barakatuh!

InshaAllah the school will re-open on the 1st of June, 2020 (any changes from this date will be informed at the appropriate time). In the wake of COVID19, we request parents and students to actively participate and cooperate with the initiatives taken by the school.

ROLE OF PARENTS:

As this situation is going to continue well into the Ramadan month, parents have to come forward to assist in the educational experience and development of their children. They will need to spend more time and supervise the daily progress. Students must follow a time table allowing them to spend atleast 2 to 3 hours for academic studies. It is important that students are supported with desktops / laptops / tablets or mobile phones with internet connection as much of the education is being transmitted through these devices. At Sana, we will be sharing lessons and assignments for them to complete during this period including Ramadan. When technology is used in the supervision of the parents, there is little to worry about misuse of these devices, Insha Allah. At the same time, parents need to monitor the progress being made by the students. Parents daily review is extremely important.

MATH BUDDY ONLINE PROGRAM

Classes 2nd to 7th students have access to Math Buddy online program. There are activities that every student has to complete and the parents may need to guide and assist. At lower classes, parents may need to explain to the students what the question means and how to approach the problem. Students' progress is being monitored and ranks are mentioned in the program depending on how much each student has completed. We encourage parents to ensure that maximum skills are completed so that the students are proficient when they progress to the next level. Please read the circular on Math Buddy posted in the Announcement page in the school website: www.sanamodelschool.com. Similarly please visit the website regularly to learn about the new developments being announced.

WORKSHEETS:

Classes 1st to 8th will be assigned weekly worksheets to develop their English comprehension and creative writing skills. Similarly other subject worksheets will also be uploaded). Kindly be informed that these Weekly Home assignment will be posted in our website every Monday. Please visit our website www.sanamodelschool.com and access all the assignments (displayed Grade wise) from the Media Library. We are continuously developing the interactions that will benefit the students. Please look out for these announcements in the website.

PLAY AT HOME PROGRAM:

As we stay indoors during lockdown, we must ensure that our children do not spend all their time in front of the screen. They can utilize this time and continue to work on some of the fitness lessons that have been taught to them at school. To help you, we have initiated a Play At Home program with our partner Sportz Village to promote physical as well as mental well being. This is a 30-day program with fitness charts and videos with clear instructions that children may follow to remain fit and more importantly, have fun. In addition, there are also other activities like sports quiz and mental activities.

Keep fit and have fun with the Play At Home program. It is advised not to upload photos or videos of the activities mentioned in step 5 in the below link. It is not compulsory to download and fill up the Log sheets either.

Play At Home Program page: <http://www.sportzvillage.com/schools/play-at-home/>
