

CAREER GUIDANCE AND COUNSELLING

Every individual possesses the attributes necessary for leading a quality life and when the unlimited power is appropriately tapped, one can reach greater heights.

Career Guidance is a comprehensive developmental program designed to assist individuals in making and implementing informed educational and occupational choices. Hence a workshop on Career Guidance was organised for our senior school students by a team of experts from Transcend on 3rd and 4th January 2019. An assessment was conducted and the parents as well as students attended one to one counselling session. Furthermore, the following speakers were invited to give a talk in order to motivate our students and guide them to make wise career choices in future.

SNo	Educational Field	Experts
1	Architecture	Ms Fayiza Shakir Architect and Assistant Professor Mohammed Sathak AJ Academy of Architecture
2	Humanities	Ms Meghala Psychologist
3	Allied Science	Dr Andrew John Assistant Professor Ramachandra Hospital & Medical College
